

Rivendell's New Direction

Cellar Door with Wine,
Tastings, Coffee, Beer and
Snacks

Weddings and Events

Rivendell has been around for a long time and we get a lot of questions regarding our new direction for Rivendell. We decided that we no longer wish to have a restaurant, part due to the COVID situation, and part due to it hindering an effective wedding business. Our focus is now on creating and selling great wines and hosting amazing weddings.

The opportunity is still available for visitors of the cellar door to enjoy our beautiful gardens with a drink of their choice alongside a selection of snacks.

Rivendell has always been a great wedding destination and we continue work on making our venue better. There are nine villas available with another three in the pipeline. While walking around our gardens you may also notice the improvements made over the past two years with flourishing garden beds and manicured lawns.
